

Mrs Davis has very kindly invited me to talk to you (as a Mum) about our reasons for keeping Samuel at Parish. We feel very privileged to have choice this time. It would seem natural for him to follow the path that his siblings took and bringing my son to work with me is not about convenience, we believe that this is the best school.

- That it is an environment where Samuel will be fully understood and known by every single member of staff – a place where he will thrive, be celebrated as an individual and receive bespoke teaching and exceptional care. That the staff collectively discuss every half how to extend and support each child.
 - That Samuel will be challenged, inspired and taught by outstanding and experienced teachers who have developed a creative, exciting and fresh curriculum.
 - The long term vision for the school – that every stage and decision is discussed, researched and discussed again, until the best possible outcome is achieved.
 - The school values – child centred – every decision is for the child
 - Our belief in the school leadership and staff
 - That Samuel will have access to brand new facilities and a progressive, thought-through learning environment.
 - That he will benefit from having access to a large outdoor environment, spread across three areas that will only ever be shared by eight classes maximum.
 - Competitive sporting opportunities and fantastic PE teaching
 - A wide range of extra-curricular activities
 - Opportunities to learn musical instruments and develop artistically
 - Purposeful School Journeys – to include an education focus, social development, independence and physical challenge
- Opportunities to be challenged and feel success –
- To take risks and be brave
 - Be encouraged to perform in school plays and concerts
 - To be selected for sports teams
 - Represent his school in other ways
- A school at the heart of our community where we can get involved and be fully connected – where our family is embedded
 - Consistency and stability for Samuel. That he will continue his educational journey in a school community he loves, where he is happy, and has made such a fabulous network of friendships.
